David Ginn's Second Most Important Kidshow Magic Book Ever!

David Ginn surprised himself when he wrote and published *Kidshow Magic Kompendium* in 2017. Six years later he follows with this huge sequel — all written from experience — a book filled with fun and funny ANIMAL MAGIC.

Wait, let's be clear — **This book is NOT just about live animals!**

"Put any animal trick into your show," says David. "Use an animal toy, story, picture, thought, puppet, even a spring snake — *and that ANIMAL THEME will captivate children!*"

Based on fifty years of experience performing at schools, libraries, churches, and parties — ***Children Love Animals*** shares almost every animal trick or routine David has ever used to make children "laugh and play."

Picture this — **512 pages 8.5 x 11 inches hardbound with over 800 color photos!** Over 200 sections teaching you tricks, stories, ideas, routines, and wonderful bits ALL with ANIMALS as their themes. And mostly UNPUBLISHED until now! Just check the inside of this brochure for the full step-by-step book contents.

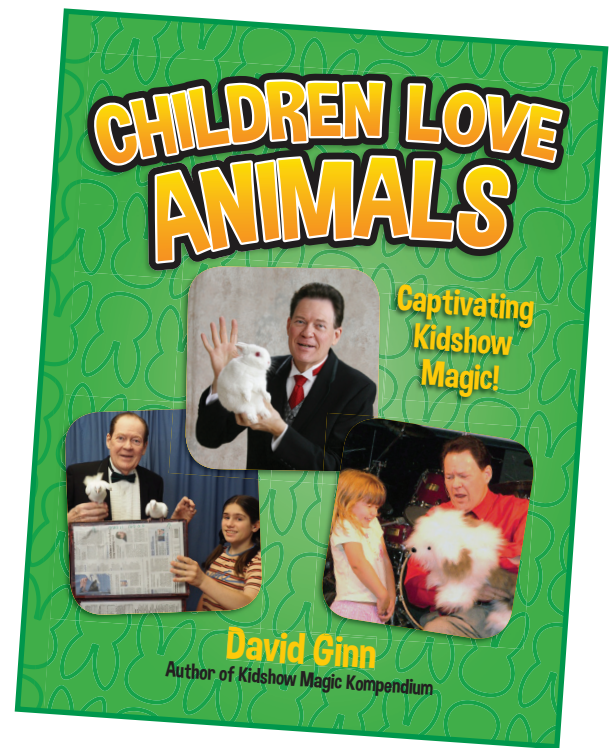

Nine years ago David Ginn had to make an important decision: *Do I write KIDSHOW MAGIC KOMPENDIUM or do I finish the ANIMALS book I started in 2005?* KMK won out, but the animal book (already 50% written) never left David's mind. Now here it is! **A ONE-TIME ONLY PRINTING of 1300 copies — NEVER to be reprinted!**

Although *Children Love Animals* is 90% new and unpublished, David does revisit several out-of-print routines like The Snake Can, his Comedy Lunch Box, Card Spider, the No-Snake Box, and the Test Tube Bunny. Furthermore, throughout the book, friends such as Ian Adair, Bev Bergeron, Bob Carroll, Margaret Clauder, Dan Garrett, Gene Gordon, U. F. Grant, Brenda and Marty Hahne, Edwin Hooper, Duane Laffin, Jay Luthy, Jeff McBride, Mark Merchant, Joanne and Bert Midyette, Barry Mitchell, Roy Porfido, Andrew Remnet, Sammy Smith, Steve Taylor, Mark Tripp, Mark Wade, and Nani and Mark Wilson, contribute thoughts, tricks and full routines to prove David's thesis — *put any kind of animal trick in your children's show, and the kids will love you!*

Woven into the book you'll read dozens of true stories about performing live magic with these effects, sometimes with unusual results. Knowledge of such things can only be had from performing lots of live programs. For this reason, you'll learn plenty from reading what David and friends share with you, helping you become a better performer.

Children Love Animals is David Ginn's second magical legacy book of a lifetime. A little autobiography, a little magical history, but ALL MAGIC FOR CHILDREN! Read it, learn from it, absorb it, and share it with your kidshow audiences — and *have FUN yourself* while you're entertaining all those children!

**Remember — CHILDREN LOVE ANIMALS is NOT ONLY about live animals!
Toys, puppets, pictures, stories, or anything ANIMAL will attract
children like a MAGNET does to steel!**
